# Provarci

This verb can have two different meanings, but you use it in the same way: put the "ci" first and then the verb "provare" conjugated as you need.

1. The first meaning is to ***take the plunge***.  
**Non sono sicura, ma ci provo lo stesso!**  
(I'm not sure, but I'm going to try anyway)

2. The second meaning is to ***make a pass at someone***.

**Il tuo amico ci ha provato con me ieri.**  
(Your friend tried it on with me yesterday)
